The following is an examiner's statement of reasons for allowance:

In claims 1, and 14, the claimed inventions define the practical application of drawing object on a screen, by finding the reflectivity expressing a ratio of reflection of light incident upon one point of a surface of an object to be drawn at the object surface using a bi-directional reflection distribution function (BRDF) model. The preamble of these claims is included as a part of the invention because the reflectivity in the body of the claim is related to the reflectivity in the preamble for use in drawing an object in the display.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phu K. Nguyen whose telephone number is (571) 272 7645. The examiner can normally be reached on M-F 8:00-4:30.
